Introducer(s):

Education Committee

Title: AN ACT CONCERNING TAX CREDITS FOR DONATIONS OF COMPUTER EQUIPMENT TO NONPUBLIC SCHOOLS.

Statement of Purpose: To limit school construction grant eligibility of construction change orders or other change directives for school construction projects with total authorized project costs greater than ten million dollars to a maximum of five per cent of the authorized total project costs, except that fifty per cent of change orders or other change directives in excess of five per cent shall be eligible for grant assistance, to apply the redirection of use provisions to all school construction projects except projects exclusively to remedy certified indoor air quality emergencies or to correct code violations, to specify rules for turn-key school construction projects by defining "turn-key purchase," by requiring that the Department of Education conduct architectural code reviews of turn-key projects as with any other construction project for which state grant assistance is sought, and by requiring the application of school construction space standards to turn-key construction and to reduce the requirement that districts report to the Department of Education on the condition of school facilities, and the action taken to implement their long-term school building program and indoor air quality program, from every year to every two years and provide that the department report to the General Assembly on these issues every two years rather than every year.
